How to understand a storm water system and best maintenance practices for cost savings.

Event Date: April 27, 2021

This course will teach facilities managers about storm water drain systems and best practices for preventative maintenance versus full system reconstruction. The course will review CCTV inspections, manual inspections, and typical warning signs. Lunch will be provided. This is an FM Event. Learning Objective 1 Describe what a storm water drainage system is, and how ...

## Building Envelope Inspection: How to Manage Risk and Reduce Liability

Event Date: May 4, 2021

It is estimated that a piece of masonry falls off a building in the U.S. every 3 weeks. Unfortunately, it has taken front page news of personal injuries, deaths, and property damage to prompt authorities to enact Building Façade ordinances. Learn how façade inspections are conducted and why the owners of some of the largest ...
